

Warning:

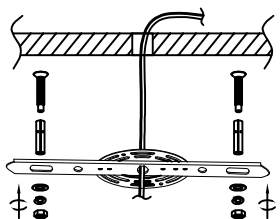

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

Product style diagram

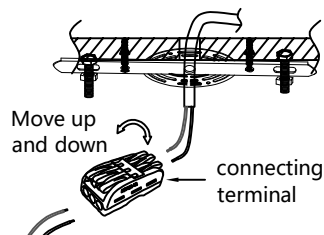

Steps of installation

1

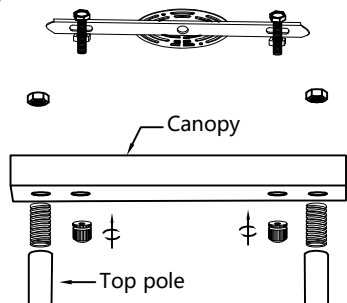

First, fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

2

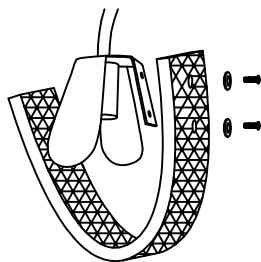

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

3

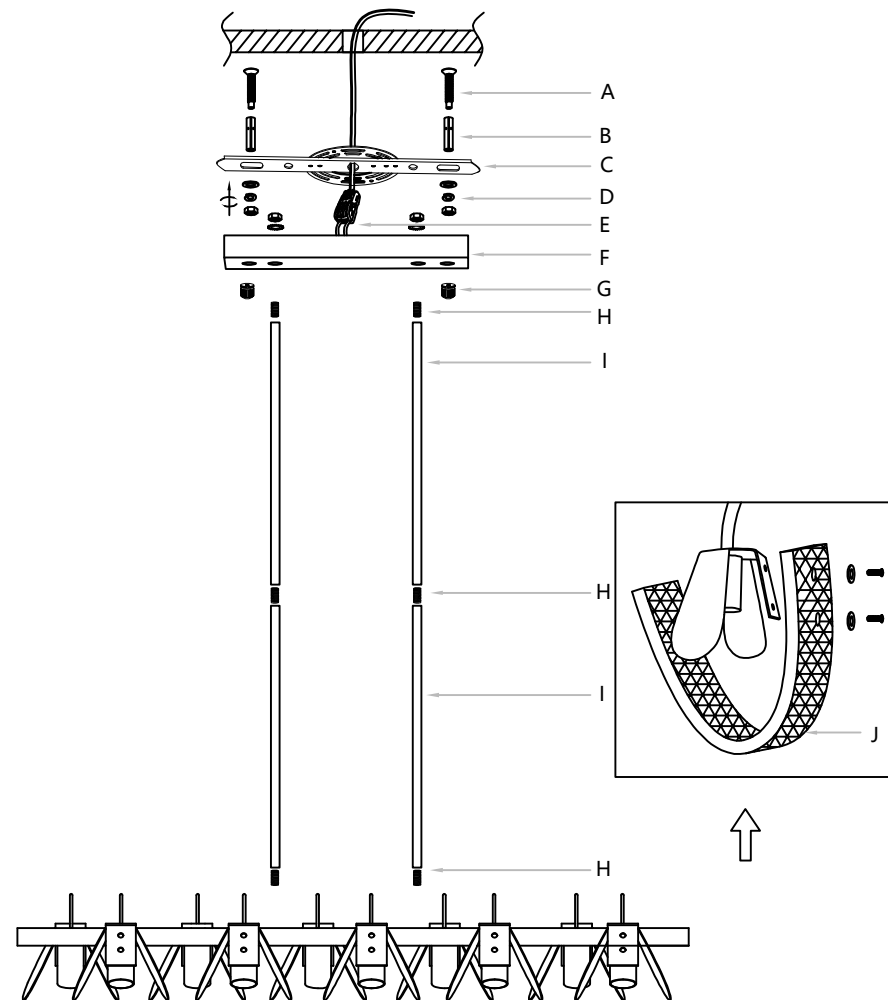

First, lock the top pole of the lamp body onto the canopy. Then, fix the entire lamp canopy onto the installation plate. Finally, secure the bottom of the canopy with wing nut screws.

4

Install the U-shaped glass sheet. Remember to place the gasket and then tighten the screws.

First, pass the lamp wire through the bottom rod (I) and the top rod (I) of the screw (H), then connect the bottom rod (I) together with the screw (H) to the lamp body, then connect the top rod (I) and the bottom rod (I) together, and finally connect the lamp body to the mounting plate (F). Then tighten the nut and washer inside the top cover (F). Next, insert the expansion screws in the ceiling, fix the mounting plate (C) to (A.B), lock it with nuts (D) and washers, connect the wires inside the lamp and the wires inside the ceiling to terminal (E), then install the top cover (F) on the mounting plate (C), lock it with a flower-shaped nut, and finally install the U-shaped lampshade (J) on the lamp. First insert the silicone gasket, then lock the lamp with self-tapping screws, thus completing the installation of the lamp.
