

Warning:

This product must be installed by personnel who are familiar with its structure and related hazards, in accordance with the installation specifications. This product is suitable for indoor installation.

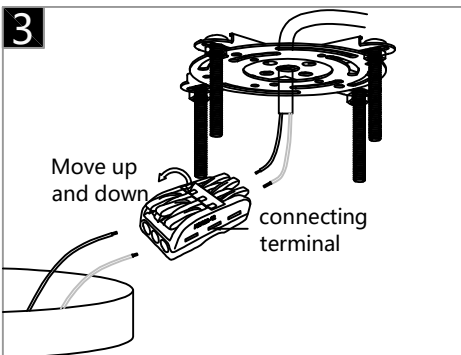

Product style diagram

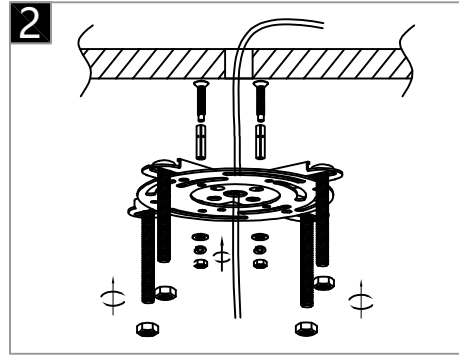

Steps of installation

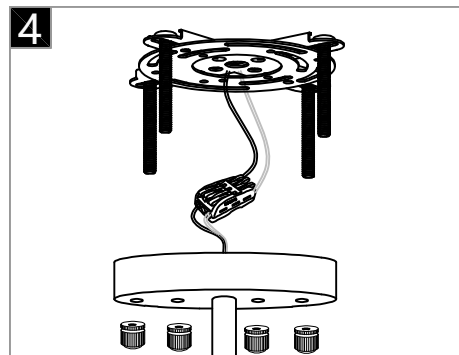

Install the lamp wall bracket onto the bottom cover, then connect the wires together by color, then pass them through the connector nuts and fix them onto the top cover. Finally, install the U-shaped glass sheet onto the lamp arm bracket.

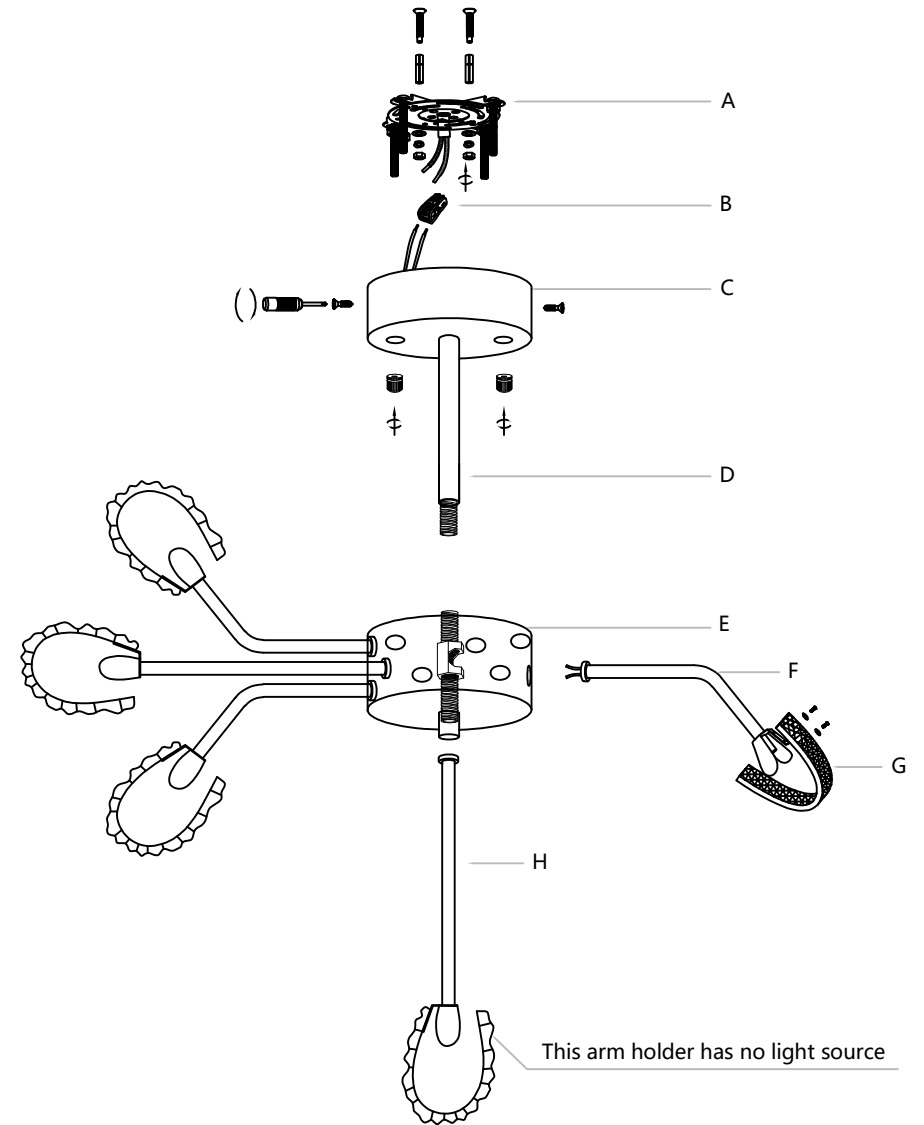

Connect the wires inside the luminaire and ceiling to the terminal, usually neutral wire (white), hot wire (black)

fix the expansion screws onto the ceiling, and then lock the mounting plate onto the screws.

Align the top cover hole position on the luminaire with the screws on the mounting plate and then secure from the bottom using the nut.

Install the three lamp arm brackets (F) on the lamp body box (E), then attach the U-shaped glass sheet (G) to the lamp arm brackets (F), then install the lamp body box on the lamp body connecting rod (D), finally screw the lamp arm without a light source (H) onto the lamp body box (E), fix the mounting plate (A) to the ceiling with screws, connect the wires on the top cover (C) to the wiring terminals (B) on the ceiling, finally fix the top cover (C) onto the mounting plate (A), and tighten it with nuts.
